## COMPUTERS AND MEDICINE

This bi-monthly publication is an invaluable source of information on the latest developments in medical computing technology. Produced by the AMA Computers Systems in Medicine Program, **Computers and Medicine** reports on the ways computer technology is used clinically and administratively in private practices, hospitals, clinics, and medical societies.

The format of **Computers and Medicine** emphasizes brief articles which convey the fundamental concepts involved in applications currently in use, as well as those in developmental and experimental stages.
